ESI 800 SERIES

Agent Activated

The ESI 800 is the fastest, most reliable Agent Terminal available today. Its high speed telecommunications as well as mass storage and memory expansion capabilities allows the ESI 800 to be part of an On-Line, Off-Line or Store and Forward system. The ESI 800 offers any combination of present and future lottery products, including Lotto, Daily Numbers, Sports Pool Betting, Weekly and Instant games.

VAULT™

Player Activated

The VAULT (Videoscreen Activated User Lottery Terminal) is an essential part of any complete on-line lottery system. The VAULT expands present lottery products and reaches a new market of video oriented lottery players. The VAULT terminal allows the player to select their choice of games via a user friendly touch screen. The VAULT issues a printed lottery ticket for Lotto or Daily Numbers and can mechanically dispense Instant Tickets.

The ESI 800 agent terminal and VAULT player terminal provide the winning combination for a complete on-line State Lottery system.
